STIP AMENDMENT 00S-082 ACTION

ACTION UPDATE FROM NOTICE

This item was noticed at the January 2002 Commission meeting; the Commission indicated that sponsors should only present amendments for action in February if the projects are crucial in nature. The sponsor should be present to address any concerns from the Commission. The Amendment was revised to propose programming the entire \$165,000 in FY 2001-02 in the current STIP, instead of programming \$104,000 in the current Amendment and the remaining in the LACMTA's 2002 Regional Transportation Improvement Program (RTIP) as proposed in the Notice.

SUMMARY

This amendment programs \$165,000 in FY 2001-02 from Los Angeles County's Unprogrammed Share Balance towards a \$218,000 project to install 41 computerized kiosks (transportation information systems) at various locations in Los Angeles County to provide public transit scheduling information.

RECOMMENDATION

The Los Angeles County Metropolitan Transportation Authority (LACMTA) is requesting this amendment. The Department has reviewed the amendment and found it to be consistent with the Commission adopted STIP guidelines.

RESOLUTION

Resolved, that the California Transportation Commission (CTC) revise the 2000 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as follows:

Adds:

Project Information								
County:	CT District:	PPNO:	EA:	Element:	Const Year:	PM Back	PM Ahead	Route/Corridor

PA&ED PS&E R/W CON			\$218				\$218
TOTAL			\$218				\$218

BACKGROUND

This amendment programs \$165,000 in FY 2001-02 from Los Angeles County's Unprogrammed Share Balance towards a \$218,000 project to install 41 computerized kiosks (transportation information systems) at various locations in Los Angeles County to provide public transit scheduling information.

Currently, transit users that make trips utilizing multiple transit operators are required to contact each individual transit provider in order to obtain schedule information. This Transportation Information Project (TIP) proposes to install computerized information kiosks at 41 locations in southeast Los Angeles County. These kiosks will utilize a system that will coordinate the various transit operators in a given area and provide up-to-date and accurate information pertaining to public transportation schedules.
